Hello Jenny,

I am pleased to report that the Long and Lat for the facility have an EJ Rating of 55th percentile. The closest downstream red zone is near Portland, about 30 mi away. ScreenShot below.

I will check back on each entry, but I think this completes EJ Screening for the 9 applicants listed below.

Subject: EJ Screens

Hey John,

Can you do EJ screens for the 9 dams I'm working on? No huge rush on this, but by the first week of August would be great.
